

Does your child have **VISION IMPAIRMENT?**

The Australian Childhood Vision Impairment Register collects information on children who have vision impairment. This information is used in research and to plan better services throughout Australia. Information from the Register is shared with researchers and planners, however children & their family are not identified in any way.

The Australian Childhood Vision Impairment Register is maintained by the Royal Institute for Deaf and Blind Children, a service provider with a 150 year history of supporting children with vision impairment and their families. The Register is supported by other Australian low vision agencies.

If your child has vision impairment you are invited to join.

By registering your child you will contribute to what is known about children who have vision impairment and what best meets their needs.

The Australian Childhood Vision Impairment Register website - the VI Family Network (www.vifamilynetwork.org.au) can also help you with finding specialised services which support your child's health and education.
